Example programs for Module 9 – Binary Trees

Example 1	BinaryNodeTree folder
	   BinaryTreeInterface.h
	   BinaryNodeTree.h
	   BinaryNodeTree.cpp
	   BinaryNode.h
	   BinaryNode.cpp
	   NotFoundException.h
	   NotFoundException.cpp
	   PrecondViolatedExcep.h
	   PrecondViolatedExcep.cpp
	   main.cpp
	   makefile
		Demonstrates a Binary Tree ADT implemented using a linked list

Example 2	BinarySearchTree folder
	   All of the above files plus
	     BinarySearchTree.h
	     BinarySearchTree.cpp
		Extends the BinaryNodeTree class to create a Binary Search Tree
